The Law of the Federal Republic of Germany regarding ads and inserts in newspapers and magazines applies as well as the additional terms and conditions of the publisher.

Your subject matter (article, portrait or interview) will be integrated into the layout of the travelmagazine website www.clever-reisen.club in the form of an editorial article for a period of usually three months.

What are the benefits for you?

- It attracts attention and there is a high level of acceptance among readers due to the fact that it looks editorial in nature
- Your advert is perceived as content
- Your subject matter is disseminated among the precious „Clever reisen!“ target group
- You can take advantage of the credibility and reach of „Clever reisen!“

What must I deliver?

You supply a finished text with a maximum of 3.000 characters and a maximum of six photos in landscape format, which we will integrate into the editorial system. Up to four links and a video can also be integrated. The article will be identified as a „Sponsored Post/Werbung“.

What must you bear in mind?

Please do not use a normal press release for a sponsored post. Your article should offer the reader some kind of utility value. For example: „The five best trekking destinations in Canada“ „The best city hotels in Tokyo“ or „The best tips for a rental car tour around Oregon“.

If the article headline already clearly shows the utility value, it will be viewed more frequently. You can add the obligatory call-to-action link at the end of the article, but you are also welcome to direct the reader to your website within the article itself by incorporating up to four links.

Lead time: two weeks Approval: The editorial team must approve the sponsored post in advance. The sponsored post is automatically configured for all end devices (desktop, tablet and smartphone) and can be viewed via the home page and the appropriate overview/ category page.
